current developments in air pollution modelling are explored as a series of contributions from researchers at the forefront of their field this newest contribution on air pollution modelling and its application is focused on local urban regional and intercontinental modelling long term modelling and trend analysis data assimilation and air quality forecasting model assessment and

evaluation aerosol transformation additionally this work also examines the relationship between air quality and human health and the effects of climate change on air quality this work is a collection of selected papers presented at the 35th international technical meeting on air pollution modeling and its application held in chania crete greece oct 3 7 2016 the book is intended as reference material for students and professors interested in air pollution modelling at the graduate level as well as researchers and professionals involved in developing and utilizing air pollution models

european monographs series the european union eu has chosen to react to violence and aggression in states outside the block through the imposition of restrictive measures both autonomous and mandated by the security council of the united nations in recent years it has furthermore chosen to react to malicious activities that do not necessarily unfold within the territory of a specific state to date the eu has done so in thirty seven instances following more than eighty eu legal instruments this book is the first to thoroughly investigate the origins nature and implications of the whole range of sanctions regimes set by the eu breaching international peace and security violent repression and political stalemate serious violation of human rights terrorism malicious cyber activities and proliferation and use of chemical weapons have urged the eu to adopt restrictive measures such measures affect funds and financial services as well as banking energy gold precious metals diamonds and luxury goods cultural property tourism and travel broadcasting arms weapons and missiles dual use items as set both by the eu and by international actors such as the australia group the missile technology control regime the nuclear suppliers group and the wassenaar arrangement mining and quarrying and logistics the book s comprehensive coverage includes insights into the legal basis for adopting sanctions by taking in the resolutions of the un security council that were previously adopted or failed to become so the preference for smart or targeted measures over embargoes or economic sanctions the principles guiding restrictive measures including expiration or review when and if a restrictive measure can be challenged and correlations with us legislation as the case may be a special chapter is dedicated to the particularly complex restrictive measures related to russia s aggression in ukraine as a focused and well organized explication of the eu sanctions regimes the book s invaluable guidance in identifying the legislative instruments shaping each sanctions regime and in producing arguments on the basis of discrepancies among them will be welcomed by policymakers scholars and practitioners whose work involves international relations international peace and security defence banking and finance as well as luxury items and fine arts

this book aims to provide an international forum for scholarly researchers practitioners and academic communities to explore the role of information and communication technologies and its applications in technical and scholarly development the conference attracted a total of 464 submissions of which 152 submissions including 4 poster papers have been selected after a double blind review process academic pioneering researchers scientists industrial engineers and students will find this series useful to gain insight into the current research and next generation information science and communication technologies this book discusses the aspects of communication data science ambient intelligence networking computing security and internet of things from classical to intelligent scope the authors hope that readers find the volume interesting and valuable it gathers chapters addressing state of the art intelligent methods and techniques for solving real world problems along with a vision of the future research

this book offers a comparative analysis of credit cooperative systems across 23 european countries cooperative banking has an important place in the financial economic and social life of most european countries and while cooperative banks

credit mutuals credit cooperatives and credit unions share the spirit of cooperation and mutuality they often have very different features history and development the book examines the evolution and current model of each credit cooperative system its importance for the national and local banking markets as well as the impact of the financial crisis on cooperative banking and also presents the sharp contrasts between these systems throughout the eu it is of significant scientific and practical interest and enables policymakers practitioners and academics at european and national levels to deepen their understanding of the evolution of the system and its governance

the war stories and combat narratives of the 11th armored cavalry regiment during five and a half years of combat in vietnam when the u s army went to war in south vietnam in 1965 the general consensus was that counterinsurgency was an infantryman s war if there were any role at all for armored forces it would be strictly to support the infantry however from the time the 11th armored cavalry regiment arrived in the country in september 1966 troopers of the blackhorse regiment demonstrated the fallacy of this assumption by the time of tet 68 the army s leadership began to understand that the regiment s mobility firepower flexibility and leadership made a difference on the battlefield well beyond its numbers over the course of the 11th cavalry s five and a half years in combat in south vietnam and cambodia over 25 000 young men served in the regiment their stories and those of their families represent the vietnam generation in graphic sometimes humorous often heart wrenching detail collected by the author through hundreds of in person telephone and electronic interviews over a period of twenty five plus years these war stories provide context for the companion volume the blackhorse in vietnam amongst the stories of the blackhorse troopers and their families are the tales of the wide variety of animals they encountered during their time in combat as well as the variable landscape from jungle to rice paddies and weather blackhorse tales concludes with a look at how the troopers dealt with their combat experiences since returning from vietnam without question donald snedeker has paid a fitting tribute to this superb unit its soldiers and their families military review

portugal s european union honeymoon has officially ended it was the victim of a europe wide political and financial crisis and an unstable eu identity increasingly splintered along regional and economic fractures what does this mean for the former good student of european democracy the answer may lie in renewed portuguese efforts to deepen and strengthen ties with lusophone countries across the globe which since 1996 have been organized into a supranational organization called the community of portuguese speaking countries cplp while portugal s marginality in relation to europe might be emphasized in the corridors of brussels within the realm of the cplp the former world power can once again see itself as existing at the center geographically as well as from a historic cultural perspective of an extensive international milieu the lusophone world the evolution of portuguese national narratives explores the dialectic between portugal s sense of identity and belonging in the eu and the cplp it provides an analysis of the manner in which portugal s institutional allegiances to both of these organizations have impacted the political economic and social fabric of the nation the fact that portugal is turning to its former colonies as alternate partners in trade commerce emigration and development initiatives may not be evidence of straightforward estrangement from the european continent more likely portugal appears to be riding a fresh wave of what it means to be modern in the european milieu this new concept of modernity related to rhetoric of hybridity and a self professed position as interlocutor could be evidence of a deeper understanding of the new tools needed to survive and prosper in a rapidly changing european union

this book offers a unique guide to the three dimensional 3d printing of metals it covers various aspects of additive subtractive and joining processes used to form three dimensional parts with applications ranging from prototyping to production examining a variety of manufacturing technologies and their ability to produce both prototypes and functional production quality parts the individual chapters address metal components and discuss some of the important research challenges associated with the use of these technologies as well as exploring the latest technologies currently under development the book features unique sections on electron beam melting technology material lifting and the importance this science has in the engineering context presenting unique real life case studies from industry this book is also the first to offer the perspective of engineers who work in the field of aerospace and transportation systems and who design components and manufacturing networks written by the leading experts in this field at universities and in industry it provides a comprehensive textbook for students and an invaluable guide for practitioners
