after being uneasy allies in world war ii the 1950s saw the united states and the soviet union entering the cold war a thirty year conflict in which the adversaries never went into physical battle with each other but fought many proxy wars in other nations this gripping and fast paced book traces the cold war through the lens of spying and code breaking by showing how advances in computer

technology and mathematics kept the technology race every bit as nerve racking as the arms race that characterized the conflict

the end of the cold war should have been an occasion to reassess its origins history significance and consequences yet most commentators have restated positions already developed during the cold war they have taken the break up of the soviet union the shift toward capitalism and electoral politics in eastern europe and countries formerly in the ussr as evidence of a moral and political victory for the united states that needs no further elaboration this collection of essays offers a more complex and nuanced analysis of cold war history it challenges the prevailing perspective which editor allen hunter terms vindicationism writing from different disciplinary and conceptual vantage points the contributors to the collection invite a rethinking of what the cold war was how fully it defined the decades after world war ii what forces sustained it and what forces led to its demise by exploring a wide range of central themes of the era rethinking the cold war widens the discussion of the cold war s place in post war history and intellectual life

this work on the pioneering history of the boers in the cape colony south africa before the great trek 1835 1846 is primarily based on research in various archives and libraries however the author pj van der merwe 1912 1979 found it desirable to personally visit different areas mentioned in the book to get to know the country and the people better and to gather oral tradition and personal information in carrying out this fieldwork during 1938 and 1939 the author covered 15 000 miles by car and questioned hundreds of people old pioneers farmers teachers magistrates school inspectors livestock inspectors surveyors and police agents this investigation not only enabled him to better interpret the sometimes fragmentary data found in the archives and old travel descriptions but also served to supplement it

weather is never static it is always dynamic its interpretation is an art the environment is in control in wildland firefighting free burning fires are literally nourished by weather elements atmospheric components and atmospheric motion outguessing mother nature in order to win control is an extremely difficult task we need to soothe her with understanding we have attempted to present information in such a way that your daily and seasonal awareness of fire weather can begin with reliable basic knowledge we have kept the use of technical terms to a minimum but where it was necessary for clear and accurate presentation we have

introduced and defined the proper terms growing awareness of fire weather when combined with related experience on fires can develop into increasingly intuitive rapid and accurate applications toward this end we have preceded each chapter with a paragraph or two on important points to look for in relating weather factors to fire control planning and action

this guide to the study and use of military history is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study it is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past
